

DESIGN

SERVICES

The background is a dark gray with a pattern of faint, light gray icons. These icons include various geometric shapes like squares, circles, and triangles, as well as recognizable logos such as the Apple logo, the AWS logo, and the JavaScript logo. There are also abstract shapes and symbols scattered throughout.

DESIGN SERVICES

- Website, CMS, CRM design
- Logo design
- Social media design creation
- Design templates creation for company emails and documents
- Individual UX/UI projects
- Photo/video content creation

OFFER DESIGN SERVICES

It is sometimes very difficult to keep up with design trends and current solutions in the industry, as it requires extra effort and skills at the very least, but it is important to keep up with the competition and here's why:

Design is a tool for:

- **Forming a first impression**

Your visitors to your website and social media pages often judge the quality of your activities based on first impressions, and the same is true outside the internet. Don't lose potential customers to an unprofessionally designed corporate identity.

- **Creating a corporate identity**

Today's markets are saturated with goods and services. To win over consumers, it is important to attract attention, to be memorable and to stand out from the competition. The corporate identity, which forms the image of the company, consists of a combination of graphics, fonts, colours and a slogan, the aim being to create a unique and memorable style for your activity.

- **Increasing sales**

If your corporate identity appeals to your customers and creates a good first impression for new visitors to your website or social media pages, it will certainly help to increase sales, because it's no secret that emotion, recognition, habits, overall satisfaction and other factors will influence whether a customer comes back to you again or not.

- **Defining your target audience**

You probably realise that certain styles are designed with the target audience in mind. Over time, the preferences of your target audience may change and you need to update your design solutions to retain your target audience. Alternatively, younger generations may grow up to become your customers, but never do because the design is unsuitable for them, because they judge the quality of your business based on their perception of relevant and high-quality design.

We offer you to consult about the design solution you want via email:

Your **success** is our aim

AN EXAMPLE OF OUR IT WORK

Successfully developed a project for a private individual, creating a unified system for trading and investing, system functionality:

- Place and manage orders to buy/sell cryptocurrencies and stocks using the APIs of various exchanges
- Placing and managing futures using the Binance exchange API
- Collection and detailed review of trading and investment statistics
- Transaction notifications on Telegram
- Two-factor authentication via Telegram
- Various automations to make trading easier
- Ability to add users to the system

A screenshot of a login form interface. At the top center is a black logo of a stylized bird or flame. Below it, the word "Login" is centered in bold. There are two input fields: "Telegram username" and "Password", each with a horizontal line for text entry. Below the "Password" field is a light blue button with the text "Sign in". The entire form is enclosed in a pink rectangular border.
