EXAMPLE OF PROJECT

Successfully developed a project for a private individual, creating a unified system for trading and investing, system functionality:

- Place and manage orders to buy/sell cryptocurrencies and stocks using the APIs of various exchanges
- Placing and managing futures using the Binance exchange API
- Collection and detailed review of trading and investment statistics
- Transaction notifications on Telegram
- Two-factor authentication via Telegram
- Various automations to make trading easier
- Ability to add users to the system

A screenshot of a login form interface. At the top center is a black silhouette of a phoenix. Below it, the word "Login" is centered in a bold, black font. Underneath "Login" are two input fields: the first is labeled "Telegram username" and the second is labeled "Password". Both labels are in a small, gray font. Below the "Password" field is a gray button with the text "Sign in" in a small, black font. The entire login form is enclosed in a white rounded rectangle with a thin pink border, set against a light gray background.
